## I-Tag®

fits with Suretag® Applicator

Dalton® Ireland can now offer the farmer a complete data collection management system. From electronic tags, readers, autodrafters to weigh scales and software you now can speak to one supplier for all answers to your data collection and livestock information management needs. With quality brands such as Ruddweigh and Gallagher we offer a complete integrated package with the best individual products for easy on farm set up.

### Sheep & Goat Version

For Sheep & Goats the especially designed 25mm diameter I-Tag is fitted using the Suretag system to provide the most lightweight solution. Quick and simple to fit with the Suretag applicator, combine the I-Tag® female with either button or flag Suretag male as required.

### Pig Version

Based on the Suretag this lightweight tag will fit most needle type applicators. The 30mm diameter I-Tag for pigs is an FDX-B 134.2Khz transponder produced to ISO Standard 11784/5.

### Panel Reader

The new Gallagher „R“ & „BR“ Panel Readers have revolutionised Animal Management and Recording. Easily installed by the user with the most advanced self tuning available. For extreme radio interference or sites using multiple readers the configurator software included allows for wireless synchronisation and diagnosis of interference from electrical or mechanical sources.

- Tough one piece sealed Antenna Panel available in 600 or 1300 mm heights
- Switchable Options
- Steel Re-inforced mounting positions

### Smart Reader

Half duplex and full duplex ISO reader communicates with weigh scales and other data capture devices using Bluetooth wireless connection. It has an internal memory for 5,000 tags for later download to computer and is compatible with Gallagher SmartScale (models 500, 700 and 800) and other brands.

Gallagher Smart Scale® mobile Reader included Software

### Smart Scale®: HiTech Made Simple

Integrated weigh, data collection and EID. Compatible with virtually all herd management software. Upgradable to protect your investment.

### Heavy Duty Loadbars - G063

Up to 3500kg weighing capacity. Heavy steel chassis construction to withstand the harshest environments. Ideal for permanent installation.
